George A. Treadwell, 75 years old, a prominent metallurgist and mining promoter, died in New York from kidney disease. Mr. Treadwell was a graduate of Yale and began his career as a mining expert in 1878 as superintendent of the Vulture mine in Arizona, where he built the largest stamp mill in the country.

H. L. Gooding, chief electrician of the Four C's company, has installed a wireless telegraphy apparatus at his residence and is now successfully operating it. It is stated that he is able to receive messages from as far away as Los Angeles. The apparatus is installed merely as an experiment.—The Sonora News.

Geo. Lobb, of Superior, sent his son Geo. Lobb, Jr., who is farming the Lobb ranch, situated one mile west of town, a box of lemons this week, from the Lobb lemon orchard at Superior. Like every other variety of fruit grown in Pinal county, these lemons are exceptional in size and quality. We put a tape line on one of the lemons, taken at random from the box, and it measured 13 inches in circumference.—Florance Blade.

TAX REFORMERS WANTED.

At the request of a BORDER WIDETTE reader, we reprint the following from the pen of W. H. Kaufman of Bellingham, Washington, published in "The Public" of Chicago:

"The Washington Tax Reform League stands for such a change in our system of taxation as will encourage instead of discouraging industry. For example, in British Columbia wild land pays four to ten times as much tax as does similar improved land. This encourages development; creates a demand for labor; makes steady employment at fair wages. It benefits everybody but the speculator. In Nebraska they exempt from taxation for 'planting out' trees. In Washington we should exempt from taxation for 'blowing out' stumps.

"As a matter of fact we put fines upon people who who develop the country. A farmer who goes into the forest and puts \$1,000 of improvements on his own land, usually adds several thousand dollars to the value of adjoining wild land—for he shows what it will produce. Yet we put a fine upon him while we allow the land speculator to pocket unearned thousands. The wageworker is also interested; for, the world over, dear land means low wages, while cheap land means high wages.

As secretary of the Washington Tax Reform League I wish to get the names and addresses of three tax reformers in every Grange, Farmers' Union and Trade Union in the State of Washington. Send me at once your name, post office address and the number of your Grange or Union."

SOME LIVE STOCK.

The annual output of cattle for Arizona during the last three years has greatly exceeded the annual output for several years preceding, and may be regarded as slightly above normal. During the year ending June 30, 1909, there were inspected for slaughter within the territory 65,162 head, and shipped to points outside of Arizona, 137,209 head, making a total output of 202,371 head, says Capt. J. D. Carter, Secretary of the Live-Stock Sanitary Board in the Republic.

During the year ending June 30, 1910, there were 69,826 cattle inspected for slaughter, and 170,233 cattle inspected for shipment to outside points, making a total amount of 240,059 head.

During the year ending June 30, 1911, there were 65,373 cattle inspected for slaughter, and 181,760 head inspected for shipment to outside points making a total output of 250,133 head.

THANKSGIVING PROCLAMATION.

EXECUTIVE DEPARTMENT,
Office of the Governor.

In recognition of the manifold blessings granted us during the year, and especially for the gift of Statehood which awaits our acceptance, and in conformity with the recommendation of the President of the United States, I, RICHARD E. SLOAN, Governor of the Territory of Arizona, do hereby appoint Thursday, the thirtieth day of November A. D. nineteen hundred and eleven, as a day of Thanksgiving, and do request that the people of the Territory observe it as such, each in his own way and according to his teaching and belief rendering thanks to Almighty God, "the giver of every good and perfect gift."

IN WITNESS WHEREOF, I have hereunto set my hand caused the Great Seal of the Territory of Arizona to be affixed.

Done at the City of Phoenix, the Capital, the sixteenth day of November, A. D. nineteen hundred and eleven.

(SEAL) RICHARD E. SLOAN.

GEO. U. YOUNG
Secretary of Arizona.

"LEST WE FORGET."

It is fresh in the minds of the people of Arizona how Ralph Cameron, our delegate in Congress, did not represent the people of Arizona in their fight for the constitution which they wanted, but did represent those powerful interests outside of Arizona opposed to the wishes of the people of Arizona and opposed to a government as close to the people and as directly from the people as possible; it is also fresh in their memories how his voice was raised to so long tie the people of Arizona that they would be forever barred from having the right to vote on the great and vital issue of the recall of the judiciary, a right which was battled for and won by our revolutionary fathers, a right which is both the corner stone and the supporting arch of a republican form of government. But it is not so fresh in their minds, just now, as to how Mr. Cameron violated the law of the land and violated his duty to Arizona in the use of his right to appoint a youth from Arizona to the naval academy at Annapolis by the appointment of a youth from Boston, Mass., instead of a boy from Arizona, thus not only violating the law, but taking from Arizona its heritage from the national government, thus robbing an Arizona boy of his heritage, guaranteed by the law of the land, and giving that heritage to an outsider, the Arizona boy not even getting the traditional mess of pottage, in exchange for his birthright, and was thus betrayed by one chosen and sworn to do his duty in the premises.—Prescott Courier.

University's Enrollment.

The most notable increase in attendance at the University of Arizona, this year, is in the freshman class, which is 40 to 50 per cent larger than last year. The judgment of the faculty is that the new students are an unusually capable body. The total registration at the university to date, this year, is 265, and it is likely to run to 275, which will be a gain of 40 per cent over last year's registration. This is considerably greater than any previous enrollment at the university. The total enrollment last year was 195. Of the 265 students 212 are from Arizona and 53 from other states, or about 20 per cent. Registrations from other states are: California, 12; Illinois, 5; Michigan, Texas and Mexico, 4 each; Missouri, 3; Pennsylvania, Ohio, West Virginia and Indiana, 2 each; and one each from Massachusetts, New York, Virginia, New Jersey, Minnesota, Nebraska, Alabama, Louisiana, Oklahoma, Utah and New Mexico.
